## Our Mission

The Healthy Family Partnership will provide comprehensive nurse home visiting services. These services will build upon parents' strengths and provide guidance on improving parent-child relationships, providing a safe and loving home environment, maintaining good health practices, and reaching personal and family goals.

## Our Vision

The Healthy Family Partnership vision is one of healthy families and strong communities created by education and nurturing support to growing families.

# So, Your Expecting!

## Do You...

- Want to give your new baby the very best start?
- Need a little extra support at this time in your life?
- Want help finding the services available to you and your growing family?
- Feel like your future plans are changed forever?

The Healthy Family Partnership can lend a helping, caring hand

## Welcome to the Healthy Family Partnership

Featuring the evidence-based home visiting services of the **Nurse-Family Partnership.**

Healthy Family Partnership works to strengthen and enrich the lives of parents and babies in the comfort of their own home!

Convenient home visits by Registered Nurses begin early in your pregnancy, or right after birth, and continue until the baby's second birthday.

Participation is voluntary and there is never a charge.

During pregnancy, your home-visiting nurse will...

- Help you prepare for the arrival of your newborn.
- Help you learn more about pregnancy and childbirth.
- Help you get the things you may need for your baby.

After your baby arrives, your home-visiting nurse will...

- Give you information about breast or bottle feeding.
- Teach you about your baby's growth and development
- Give you tips to make parenting a little easier.
- Listen to *your* needs.
